3 Reasons to give me your vote
Social responsibility, Passion for (ES)EH, Outside academia perspective
There are three reasons why I run for this office that are equally good reasons to vote for me:

First reason is to support current treasurer Ulrich Koppitz in shifting his focus towards family care work.

Second reason is the opportunity to remain an active member of the ESEH despite my professional shift into research finance.

Third reason is that an outside academia but passionate for eh perspective might be beneficial occasionally.

My plans for filling this post are equally simple:

Keeping the ESEH financially operational.

Advancing our financial resilience.

Modernize processes if necessary.
