

Santiago Gorostiza

Candidate for ESEH Regional Representative for Spain

My main objective during the following years is to continue the ongoing efforts to provide a formal organisation to the Red Universitaria Española de Historia Ambiental (RUEDHA). Following the recent launch an environmental history mailing list in Spain, we will come up with a biannual report collecting any related publications, workshops and teaching activities. I will collaborate with the organisation of RUEDHA meetings, hosted by the University of Granada, in 2020 and 2022. The 2020 meeting will be an opportunity to formalise the organisation of RUEDHA, founding a larger members' committee and establishing different activities and responsibilities, for instance with the creation of RUEDHA profiles in social networks. By the end of the period in office, I would like to help organising an international environmental history meeting in Spain (such as a summer school).

Santiago Gorostiza – Summarised CV

María de Maeztu Postdoctoral researcher, Institut de Ciències i Tecnologia Ambientals (Universitat Autònoma de Barcelona)

PhD thesis: “Mobilising nature between democracy and Fascism. An environmental history of the Spanish Civil War and the legacies of the Francoist autarky”. December 21, 2017. Universidade de Coimbra (Portugal). PhD carried out as a Marie Curie – Initial Training Network fellow. European Network of Political Ecology (ENTITLE).

Postgraduate courses: Interuniversity MA in Spanish Contemporary History (2012) Universidad Autónoma de Madrid & Universidad Complutense de Madrid.

BA in History (Honors) (2011) Universitat Autònoma de Barcelona.

BSc in Environmental Sciences (2004) Universitat Autònoma de Barcelona.
